

Gave Back My Health.

There is no reason for being despondent and considering diseases of the blood incurable, simply because the treatment of physicians and many so-called blood remedies fail to effect a cure. Though it is naturally disheartening to the sufferer who faithfully takes the prescribed treatment of the physicians, often at the expense of hundreds of dollars, to find himself, no better as time goes by, still a cure will result from the right remedy, S.S.S., no matter what other treatment has failed.

The reason that S.S.S. (Swift's Specific) has so successfully cured even the worst cases after other treatment had been tried in vain is that it is the only remedy which forces the poison from the blood and permanently eliminates it from the system, which is the only correct principle of curing the disease. Mercurial remedies bottle up the poison and tear down the system, while S.S.S. forces out the poison and builds up and adds strength and vigor to the entire system. It is nature's remedy, and contains no harmful ingredient.

Mr. Charles Glenn, of 1563 Dudley St., Cincinnati, is one of the many who constantly praise S.S.S. for giving him back his health. He says:

"From childhood I was afflicted with a terrible blood disease, and have taken almost every blood remedy on the market, but my case was deep-seated, and one by one they failed. The large, red blotches increased in size and number, and soon covered my entire body."

"My parents had me treated by a number of physicians, but the disease was too much for them, and after their temporary relief was over, I found myself growing steadily worse. Thus I grew into manhood, handicapped by a terrible disease, and having tried so many remedies without relief, when a friend urged me to take S.S.S. I had little faith in any medicine. I was happy to find, however, that I had at last gotten the right remedy, for one bottle of S.S.S. did me so much good that I soon had hopes of being cured. I continued the remedy, and was cured completely, the unsightly spots soon disappeared, leaving my skin perfectly clear. My general health was also built up, and I am robust and strong. I believe S.S.S. will cure the worst case of blood poison in the world."

S.S.S. is a real blood remedy, and will cure the most obstinate cases of Cancer, Eczema, Catarrh, Scrofula, Rheumatism, Contagious Blood Poison, old sores, or any disease caused by impure blood. It is

Purely Vegetable

and is the only blood remedy guaranteed to contain not a particle of mercury, potash, arsenic or other mineral. S.S.S. is sold by all druggists.

Valuable books and on blood and skin diseases will be mailed free by Swift Specific Company, Atlanta, Ga.

Some Plain Facts.

Grave errors, injustice, wrongs of greater or less degree, arise from lack of knowledge of the truth, and more frequently from deception.

The most infamous case on record of deception and injustice is the attempt to demonize silver as a money of final redemption in the United States.

There is no learned judge, skilled lawyer, or court of justice that is capable of reconciling the effort with the constitutional laws that govern the issue of money in this country.

The people have been deceived, officials in power, chosen to administer justice under the laws, have ignored their sworn duty, and given aid to the scheme that has paralyzed industry, reduced property values one-half, and beggared millions.

There is no authority of law, either specific or by inference, by which gold alone is made the only money with which to discharge debts, either public or private. The effort to make it so is unconstitutional and a national calamity.

Plain and ample information, facts and truth, concerning this almost successful scheme to corner the wealth of the people, is now being printed in the Cincinnati Enquirer, a newspaper which the combined power of money has failed to muzzle or buy.

The Weekly Enquirer is only 75c. a year. The address is Enquirer Company, Cincinnati, O.

THE OUTDOOR CHURCH.

The carved pillars of the trees,
The flowered canopy of the grass,
The green, transparent tresses
Of leaf on leaf that lightly pass,
And lightly moves when breezes pass,

The anthem of the water fall,
My chorister the blackbird's lay,
And, mingling with, enfusing all,
Borne by the wind and still let fall,
The incense of the new mown hay—

This is my church, my altar there,
Here earth, the kindly mother, kneels,
Her mighty hands outspread in prayer,
While o'er her brow the sunny air,
A south wind full of blessing, steals.

She wraps me in her mantle fold,
I kneel and pray beside her there
As children do whom mothers hold,
And living air and sunlight gold,
And wood and meadow pray with me.

—Eva Kane in Spectator.

BUTTERWORTH'S THEORY.

His Lenient Way of Treating For Reformation Embryo Criminals.

Commissioner of Patents Butterworth is one of the men who believe that a prosecuting attorney is better engaged in side tracking embryo criminals on the road to perdition and getting them on the road to righteousness than in corralling them for shipment to the penitentiary, where they are thrown into association with professional crooks. Several years ago Major Butterworth was prosecuting attorney in southern Ohio and he had the opportunity to test his theory regarding the discrimination that should be used, in dealing with men newly launched into crime. A young farmer was arrested for passing counterfeit shipplasters, as the 50 cent note was known, and the case was put in the hands of Major Butterworth. The young man told his story. He had saved several hundred dollars, had left his wife and little children and had taken a boat down the Mississippi river, purposing to settle on a new farm he was to buy with his hard earned savings. On the boat he met an extremely pleasant and well dressed stranger, who learned of his mission and proceeded to make himself agreeable. In a moment of extreme confidence the stranger told the young man of a large quantity of money he had which was made from plates that had formerly belonged to the government and which the government had long since sought to recover, etc. The young man was struck by that remarkable method of acquiring wealth when he had toiled and saved for years to get his few hundred. In a burst of generosity the stranger offered to exchange some of his money for greenbacks belonging to his new found friend, so that the latter should have two dollars for every one he possessed. The bait was tempting and the fish bit. At the next landing the well dressed man disappeared from the boat and the dupe became alarmed. He became suspicious of his new money and was afraid to offer it in payment of his passage. He, too, left the boat, determined to go back home. He started to walk and became footsore. He began shoving the money to buy something to eat, the counterfeit was discovered and the arrest was made. Major Butterworth took in the situation.

"I told that young man," he said, in relating the story, "that if God had made him a dishonest man he had failed to put a sign on his face. I told him to go home to his wife and children as an honest man. He could scarcely realize that he had escaped the penitentiary. He went home, and a more honest or better citizen I do not know today. That man had not the heart of a criminal, but if he had been sent to the penitentiary his children would have been disgraced for life and probably he would have belonged to the criminal class for life."—St. Louis Republic.

Ants With Pluck and Brains.

To the intellectuality of ants, which men like Sir John Lubbock have always delighted to point out, a new proof has been added by the observations of a well known scientist, Professor Bonatelli, who has communicated it to the Venetian institute. He noticed that the ants used as a bridge the twig of a tree which touched a house they were desirous of reaching. He accordingly cut off the end of the twig so that it was impossible for them to get across and then watched.

After the lapse of half an hour, however, he found that the procession which he had stopped had reformed itself. He proceeded to investigate the matter, and he found that the little ants had discovered that there was another twig which, when it was blown by the breeze, touched the wall now and then.

The army of ants had formed up in line to this twig, and whenever the breeze blew it against the wall the foremost members of the band took advantage of the opportunity to get across. Man, with all his boasted genius, could do nothing more, for not only did the operation require clever timing, but absolute confidence in making what, under the circumstances, must have been a venturesome leap.—Strand Magazine.

A Boy's Thirst For Knowledge.
Little Boy—I wish I was a great philosopher like you.

Great Scientist—And why, my son?

"Cause you know everything, and there's some things I can't understand, but if I was like you I could."

"Tell me one of them."

"Well, for one thing, I'd like to know why photographers can take pictures of comets and meteors and flying cannon balls and lightning flashes and yet they can't photograph a boy without squashing his head in a pair of pinchers."—Pearson's Weekly.

Conversational Pitfalls.
Miss Meadowsweet—Excuse my ignorance, but ought I to call you Mr. Squills or Dr. Squills?

The Doctor—Oh, call me anything you like. Some of my friends call me an old fool.

Miss Meadowsweet—Ah, but that's only people who know you intimately!—London Punch.

HOW TO FIND OUT.

Fill a bottle or common glass with urine and let it stand twenty-four hours; a sediment or settling indicates an unhealthy condition of the kidneys. When urine, when it is evidence of kidney trouble. Too frequent desire to urinate or pain in the back, is also convincing proof that the kidneys and bladder are out of order.

WHAT TO DO.
